Using palatino as default font

This shows an example slide where `defaultfont=palatino` has been set as option to the ulund beamer theme. It will use Palatino in headings, Helvetica on slide text, and Courier as monospaced font.

First some math

$$f(x) = 1 + \sum_{i=0}^{5} x \cdot \frac{5 + x}{x^3} \tag{1}$$

Followed by `some monospaced text.`
